Dear **NEW BRAND MANUFACTURER**,

As the new Senior Director of Publications for the Canadian Pharmacists Association (CPhA), I would like to invite you to participate in the 2010 edition of *CPS* (print) and e-CPS (digital).

CPhA recognizes the changing market place and what that means for manufacturers. Whether your company wants to retain more customers, is focusing its marketing efforts or both, *CPS* and e-CPS are a great way to get *your* information to *your* clients – and they tell us they turn to *CPS* and e-CPS time and time again.

Here's what health professionals are saying about *CPS* and e-CPS:

- “This is a real time saver!”
- “It is absolutely necessary for the type of work we do.”
- “This is a wonderful product. It works each and every time, and is easy to use.”

Health professionals don't have the luxury of time to search multiple sites – they need a one-stop reference that's current and credible. That's *CPS* and e-CPS. As part of e-Therapeutics, which combines e-CPS with additional therapeutic content, your target audience receives even more exposure to your products.

More than 60,000 Canadian physicians receive the *CPS* every year and more are using e-CPS to meet their drug information needs. Pharmacists, with their expanding scope of practice and integration into primary care teams, are an increasingly important customer group. CPhA is the leading provider of Canadian drug and therapeutic information to Canadian physicians and pharmacists.

By taking your place in *CPS* and e-CPS, you get:

- National and international exposure to physicians and other prescribers
- Measurable results: Thousands of health care professionals access e-CPS several times a week*
- More products, better searchability and additional expert-reviewed therapeutic content compared to the next leading competitor

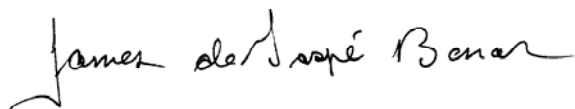

With your participation, *CPS* and e-CPS will continue to ensure health professionals can offer the best, most current and most complete Canadian drug information possible.

You will receive your 2010 Participation Package in February 2009. Our users – your clients – tell us they want full product and prescribing information. When you submit a complete listing, you're meeting your clients' needs, and they get a more comprehensive resource to better serve the public.

Finally, I would like to wish you and your staff a happy, healthy and prosperous 2009. We at CPhA look forward to working with you in the new year.

Sincerely,

James De Gaspé Bonar
Senior Director, Digital Publishing Solutions

* Results from the e-CPS Usage and Attitude Bilingual Survey, 2008.
